Wilfred C. Bain, Dean
School of Music
January 9, 1968

1582

For some time the administration of the School of Music has received comments on the overall effectiveness of the music libraries. These comments have led me to form a self-study committee. The results of the investigation of this committee have been received and are enclosed. It is the intention of the administration of the School of Music to present this to the Academic Council for comment and any recommendations that body cares to make.
